TABLE OF CONTENTS.

✓ I.—Morphology and Embryology of the Nasal Fossae of Vertebrates, by LEON DIEULAFE, Sc. D., translated by HANAU W. LOEB, A. M., M. D., St. Louis	1
II.—Remarks on the Macroscopic Diagnosis and General Indications for Treatment of Cancer of the Larynx, by JOHN NOLAND MACKENZIE, M. D.	61
III.—The Treatment of Hypertrophic and Intumescent Rhinitis, by E. FLETCHER INGALS, M. D. and STANTON A. FRIEDBERG, M. D., Chicago	73
IV.—The Treatment of Acute and Chronic Maxillary Sinusitis, by CLEMENT F. THEISEN, M. D., Albany	81
V.—The Use of the Burr in the Mastoid Operation, by A. BARKAN, M. D., San Francisco, Cal.	89
VI.—Non-Diphtheritic Membranous Pharyngitis and Rhinitis with Hyperpyrexia and an Unusual Number of Complications, with Report of Case, by JAMES F. McCaw, M. D., Watertown, N. Y.	94
VII.—Report of a Case of Deformity of the Auricle from Perichondritis Following Radical Operation for Chronic Middle Ear Suppuration and Multiple Furuncles, by WILLIAM H. HASKIN, M. D., New York	100
VIII.—Actinomycosis of the Middle Ear, with Post-Mortem Findings, by JOSEPH C. BECK, M. D. Chicago, Ill.	103
IX.—Keloid Tumors, by GEORGE A. WEBSTER, M. D., Boston, Mass.	110
X.—Growth of Bone in Both Tonsils, by WILLIAM WESLEY CARTER, A. M., M. D., New York	114
XI.—A Case of Mastoiditis Complicated with Extradural Abscess, Without a History of a Discharge from the Auditory Meatus, by SAMUEL IGLAUER, M. D., Cincinnati	117
XII.—A Case for Diagnosis, by T. H. FARRELL, M. D., Utica, N. Y.	119
XIII.—Mueller's Vertical Nasal Cut, by FRANK B. SEITZ, M. D., Buffalo, N. Y.	125

Med. 130.07 Hertzberg, 185

XIV.—The Indications for Operating in Acute Mastoiditis, by PHILIP D. KERRISON, M. D., New York	127
XV.—Report of Seven Intracranial Operations Within a Year, by GEORGE F. COTT, M. D., Buffalo	140
XVI.—A Lecture on Some Unusual Manifestations of Syphilis of the Upper Air Passages, by SIR FELIX SEMON, K. C. V. O.	201
XVII.—An Unusual Growth of the Mastoid Process, Fibro-Chondro-Osteoma of the Mastoid Antrum, by S. MAC-CUEN SMITH, M. D., Philadelphia	218
XVIII.—The Indications for Operative Interference in Mastoiditis Associated with Acute Suppurative Otitis Media, by T. MELVILLE HARDIE, M. D., Chicago	221
XIX.—A Case of Primary Syphilitic Infection of the Nose, by JAMES T. CAMPBELL, M. D., Chicago	226
XX.—Report of a Case of Abscess of the Temporo-Sphenoidal Lobe of an Otitic Origin, by JOHN J. KYLE, M. D., Indianapolis	229
XXI.—Indications and Contraindications for Intralaryngeal Operation in Tuberculosis of the Larynx, with Report of Three Cases, by CULLEN F. WELTY, M. D., San Francisco	233
XXII.—Mouth-Breathing in Relation to Mental and Moral Hygiene, by ROSS ALLEN HARRIS, M. D., Los Angeles, Cal.	240
XXIII.—An Operation for the Painless and Bloodless Removal of Submerged and Adult Tonsils, by FRANCIS B. KELLOGG, M. D., Los Angeles, Cal.	249
XXIV.—Section of Temporal Bone; Temporal Bone of Child; Metal Cast of Ear, by HILL HASTING, M. D., Los Angeles, Cal.	253
XXV.—Eustachian Catheterization Through the Mouth, with Report of an Illustrative Case, by HUGO A. KIEFFER, A. M., M. D., Los Angeles, Cal.	225
XXVI.—Demonstration of Sequester of the Temporal Bone Obtained During a Mastoid Operation, by HENRY L. WAGNER, M. D., San Francisco, Cal.	258

XXVII.—A New Tonsillotome, by EDWIN PYNCHON, M. D., Chicago 259

XXVIII.—Nasal Obstruction a Cause of Deafness, by D. H. TROWBRIDGE, M. D., Fresno, Cal. 261

XXIX.—The Morphology and Embryology of the Nasal Fossae of Vertebrates, by LEON DIEULAFE, translated by HANAU W. LOEB 267

XXX.—The Results Obtained from the Radical Operation for Chronic Purulent Otitis Media, by S. MACCUEN SMITH, M. D., Philadelphia 401

XXXI.—The Results Obtained from Radical Operation for Chronic Purulent Otitis Media, by EDWARD BRADFORD DENCH, M. D., New York 409

XXXII.—Ocular Symptoms of Nasal Origin—Report of Case of Retrobulbar Neuritis and Other Illustrative Cases, by HILL HASTINGS, M. D., Los Angeles 420

XXXIII.—Herpes Zoster Auris, by DERRICK T. VAIL, M. D., Cincinnati 434

XXXIV.—Sarcoma of the Nasopharynx—Treatment by Injection of Adrenalin, by JOHN EDWIN RHODES, M. D., Chicago 444

XXXV.—Infective Sigmoid Sinus Thrombosis—Resection Internal Jugular—Report of Case—Recovery, by H. BERT ELLIS, M. D., Los Angeles 453

XXXVI.—Three Fatal Cases of Meningitis, with Peculiar Ear Symptoms, by DR. W. H. ROBERTS, Pasadena, Cal.... 465

XXXVII.—The Nasal Turbinate as a Vaso-Motor Index, by JOS. A. BABBITT, M. D., Philadelphia 473

XXXVIII.—Postoperative Meningitis, by T. J. HARRIS, M. D., New York 483

XXXIX.—Modified Blood Clot in Mastoid Surgery, by W. SOHIER BRYANT, A. M., M. D., New York 489

XL.—The Medical Treatment of Tuberculosis of the Upper Air Passages, by WM. C. BANE, M. D., Denver..... 494

XL I.—The Climatic Treatment of Tuberculosis of the Upper Air Passages, by WOLFF FREUDENTHAL, M. D., New York	498
XL II.—Aspiration of the Tympanic Cavity in Otitis, by PERCY FRIEDENBERG, M. D., New York	510
✓ XL III.—The Morphology and Embryology of the Nasal Fossae of Vertebrates, by LEON DIEULAFFE, translated by HANAU W. LOEB	513
XL IV.—Surgical Treatment of Tuberculosis of the Upper Air Passages and the Ear, by ROBERT LEVY, M. D., Denver	587
XL V.—Widmung der Amerikanischen Festschrift an den Herrn Geheimen Medicinalrath, Professor Dr. B. Fraenkel, by DR. OTTO FREER, Chicago	607
XL VI.—Bernhard Fraenkel—What He Has Done for Rhino-Laryngology, by W. FREUDENTHAL, M. D., New York	609
XL VII.—Bernhard Fraenkel's Contributions to Medical Literature, by WOLFF FREUDENTHAL, M. D., New York, and DR. LANDGRAFF, Belzig	616
XL VIII.—Diseases of the Trachea—Anomalies, Hemorrhage, Inflammations and Infections, by JAMES E. NEWCOMB, M. D., New York	631
XL IX.—Tumors of the Trachea, by CLEMENT F. THEISEN, M. D., Albany	645
L.—Stenosis of the Trachea, by WILLIAM KELLY SIMPSON, M. D., New York	674
LI.—Foreign Bodies in the Trachea and Tracheoscopy, by A. COOLIDGE, JR., M. D., Boston	684
✓ LII.—A Study of the Anatomy of the Accessory Cavities of the Nose by Topographic Projections, by HANAU W. LOEB, A. M., M. D., St. Louis	697
✓ LIII.—The Function of the Accessory Cavities of the Nose, by J. M. INGERSOLL, A. M., M. D., Cleveland	757

TABLE OF CONTENTS.

VII

✓ LIV.—General Pathologic Processes Associated With or Following Infections of the Accessory Sinuses, by D. BRADEN KYLE, M. D., Philadelphia 775

LV.—Gastroscopy, by CHEVALIER JACKSON, M. D., Pittsburgh, Pa. 783

LVI.—Congenital Laryngeal Stridor, by A. LOGAN TURNER, M. D., F. R. C. S. E., F. R. S. E., Edinburgh 807

LVII.—Channels of Infection in Tuberculosis, by J. W. GLEITSMANN, M. D., New York 819

LVIII.—Sarcoma of the Nose, with a Consideration of the Spontaneous Disappearance of Malignant Growths, by ROBERT LEVY, M. D., Denver 828

LIX.—Middle Ear Suppuration as an Etiologic Factor in Retropharyngeal Abscess, by E. M. HOLMES, M. D., Boston 848

✓ LX.—The Qualities of the Sense of Smell, by DR. H. ZWAARDEMAKER, Utrecht 868

LXI.—The Early History of Laryngology in America, by THOMAS J. HARRIS, M. D., New York 878

LXII.—Reminiscences, by EPHRAIM CUTTER, M. D. LL. D., West Falmouth, Mass. 887

LXIII.—Contribution to the Etiology of Atrophic Rhinitis. (Rhinitis Atrophicans Simplex et Foetidus seu Ozæna), by DR. JOHN SENDZIAK, Warsaw 890

LXIV.—Laryngeal Disturbances Produced by Voice Use, by W. E. CASSELBERRY, M. D., Chicago 902

LXV.—The Removal of Adenoid Vegetations Through the Nasal Passages by a New Method, by OTTO T. FREER, M. D., Chicago 911

LXVI.—President's Address Before the American Laryngological, Rhinological and Otological Society, Kansas City, 1906, by J. E. LOGAN, M. D., Kansas City 922

VIII

TABLE OF CONTENTS.

LXVII.—The Diffuse Hyperplastic Laryngitis and Pharyngitis of Congenital Syphilis, by A. BROWN KELLY, M. D., D. Sc., Glasgow 929

LXVIII.—Cough in Diseases of the Recurrent Nerve, by PROF. GERARD FERRERI, Rome 938

LXIX.—A Contribution to the Differential Diagnosis of Certain Malignant Diseases of the Lymphoid Tissue of the Throat, by J. L. GOODALE, M. D., Boston 949

LXX.—Malignant Disease of the Tongue, with a Report of Two Cases, by JOSEPH H. BRYAN, M. D., Washington.. 957

✓ LXXI.—Treatment After the Radical Operation for Chronic Suppurative Frontal Antritis, by DR. H. LUC, Paris 963

LXXII.—How Far Are Abnormalities of the Nasal Septum Responsible For Mal-Function of the Nose? by HENRY L. SWAIN, M. D., New Haven 968

✓ LXXIII.—Skiagraphy in the Diagnosis of Frontal Sinusitis, by W. A. CHISHOLM, M. D., New York 979

LXXIV.—The Nasopharynx and the Throat in the Deaf Mute, by JAMES KERR LOVE, M. D., Glasgow. 1009

LXXV.—Persistent Unilateral Headache, Due to Nevoid Changes in the Bone of the Middle Turbinal Body, by WYATT WINGRAVE, M. D. 1012

LXXVI.—The Etiology of Hyperkeratosis of the Tonsils, by GEO. B. WOOD, M. D., Philadelphia 1015

LXXVII.—Laryngeal Phlegmon, by NORVAL H. PIERCE, M. D., Chicago 1029

LXXVIII.—An Original Research on the Cause of Vocal Nodules, by F. E. MILLER, M. D., New York..... 1038

LXXIX.—Carcinoma of the Larynx—Operation and Specimen, by CHARLES W. RICHARDSON, M. D. Washington... 1054

LXXX.—The Clinical Anatomy of the Tonsil, by WILLIAM LINCOLN BALLENGER, M. D., Chicago1057

LXXXI.—Some Observations of Submucous Resection of the Nasal Septum by the Open Method, by JOHN EDWIN RHODES, M. D., Chicago1077

LXXXII.—The Catheterization Treatment of Acute Frontal Sinus Inflammations by the Internal Method, by HOLBROOK CURTIS, M. D., New York1083

LXXXIII.—On the Permanence of the Improvement in the Shape of the Nose Obtained by the Subcutaneous Injection of Hard Paraffin, by WALKER DOWNIE, M. D.1088

LXXXIV.—A Short Note on Submucous Resection of Triangular Cartilage, by RICHARD LAKE, F. R. C. S., London.....1101

LXXXV.—A Case of Multiple Recurring Papillomata of the Larynx, by CHARLES W. RICHARDSON, M. D., Washington1104

LXXXVI.—A Statistical Report of the Results of Operation in Sarcoma of the Nose by Methods Generally Adopted, With a Plea for the More Extended Use of the Electro-Cautery in Suitable Cases, by J. PRICE-BROWN, M. D., Toronto1108

LXXXVII.—Two Cases of Stammering, Illustrating the Importance of Early Treatment, by G. HUDSON-MAKUEN, M. D., Philadelphia1120

LXXXVIII.—Violent Epistaxis in a Gouty Patient, by PROF. A. TRIFILETTI, Naples1123

LXXXIX.—The Importance of Diseases of the Nose in Treatment of the So-Called Scrofulous Diseases of the Eye, by DR. C. ZIEM, Danzig1127

XC.—Nasal Operations, by J. BARATOUX, M. D., Paris.1145

XCI.—Pseudo-Frontal Sinusitis; Sub-Periosteal Abscess of the Forehead Complicated by Thrombo-Phlebitis of the

X

TABLE OF CONTENTS.

Superior Longitudinal Sinus Extending to the Lateral Sinus and Jugular Vein on the Opposite Side; Meningitis; Death; Necropsy, by DR. V. DELSAUX, Brussels1149

XCII.—Intercrico-Thyroid Tracheotomy and Decanulation, by PROF. E. J. MOURE, Bourdeaux1153

XCIII.—Novel Method of Treatment of Synechia of the Pharynx, by EDWARD J. BERNSTEIN, M. D., Kalamazoo, Mich.1156

XCIV.—A New Self-Retaining Nasal Speculum, by JOHN H. ALLEN, M. D., Portland, Me.1159

Abstracts from Current Otologic, Rhinologic and Laryngologic Literature:

I.—EAR 148, 350, 593

II.—NOSE AND ACCESSORY CAVITIES 180, 376, 593

III.—PHARYNX AND MOUTH 189, 385, 593

IV.—LARYNX 193, 391, 593

V.—MISCELLANEOUS 196, 397, 593
